# PUBLIC SCHOOL REVIEW

## Purpose

---

All Western Australian public schools are reviewed every three years by the Department of Education's Public School Accountability directorate. A review gives assurance to the local community, the Minister for Education and Training and the Director General that a school is operating effectively and delivering high quality education to its students. The review acknowledges the achievements of the school and gives feedback to support the principal and staff with their improvement planning.

The principal provides the review team with a self-assessment of the school's performance based on evidence gathered by the principal and staff. Information validated by the review team is considered before and during the school visit. This forms the basis for the school review report. The report is provided to the principal, the chair of the school board/council and the Regional Executive Director.

## Expectations of schools

---

For all Western Australian public schools, expectations are set out in either: the Delivery and Performance Agreement, which is an agreement between the Department (represented by the Director General), school (represented by the principal) and school board (represented by the school board chair); or, the Principals' Statement of Expectations and the Funding Agreement for Schools.

## School performance rating

---

This performance rating is based on information gained from the self-assessment submission and the validation process. It is focussed on a review of the following areas of school performance: relationships and partnerships; learning environment; leadership; use of resources; teaching quality; and student achievement and progress.

The school's performance rating is:

	<b>Effective</b>
	The school demonstrates effective practice in creating the conditions required for student success.

	<b>Needs Improvement</b>
	The school has aspects of its practice below expectations and needs supported action to improve student success.

## Context

---

Canning Vale Primary School is located 21 kilometres from the Perth central business district, in the South Metropolitan Education Region, and currently enrolls 498 students from Kindergarten to Year 6.

Built in 1994, the school offers a bright and attractive campus that provides a supportive learning environment for children to develop academic, physical, social and creative skills.

The school, with an Index of Community and Socio-Educational Advantage rating of 1057 (decile 2), gained Independent Public School status in 2012.

Specialist programs offered at the school include music, physical education and visual arts. These complement a strong academic and social program.

## School self-assessment validation

---

The Principal submitted a comprehensive and rigorous school self-assessment.

The following aspects are confirmed:

- The submission provided an open, honest and transparent account of the current school context.
- A sound range of credible evidence was selected for analysis.
- Staff engagement in the school assessment process was collaborative.
- There was alignment between the performance evidence, judgements about priorities for improvement and strategies to be used.
- A culture of reflection and continuous improvement was evident.
- The school visit yielded detailed information that served to add value to the school self-assessment and assisted with validation.
- The simplified self-assessment framework adopted by the leaders has assisted processes for reflection to plan for the future.
